Tel Aviv Airport Terminal 1 used to be the main building at Tel Aviv Airport until the opening of [Terminal 3](#). Nowadays, it handles all domestic flights, including some international operations.

Its public halls have a Land-of-Israel character with walls painted in the colours of Israel's Judean, Jerusalem and Galilee mountains. The Departure Hall has an atmosphere of vacation and leisure, whilst the Arrivals Hall has a more urban theme as passengers return back to the city.

Terminal 1 Ben Gurion just has a single level facility.

Facilities include security checkpoint, check-in hall, departures, arrivals and greeters' halls.

SERVICES

- ATMs
