

Start your own smart location.

Stops

"I love it...I freakin' love it."
Hillel Fuld, *Techcrunch*

Apartment for Sale

Tour Eiffel

Stops is a **geospatial platform** that helps people and businesses connect their content and products to **smart locations** ('stops').

People can **get to facts and product locations ('without being tracked')** using:

Search, Maps, Clouds, Drones
& 3D/AR/MR/XR devices.

Fact: The average person visits 2,500 unique addresses, annually.

Stops

Users can **turn any home into a smart location.**

They can connect facts and lock private data like blueprints & warranties **that add value to the next buyer.**

They can also virtually display public data like delivery instructions & warning signs, **right from their doorstep.**

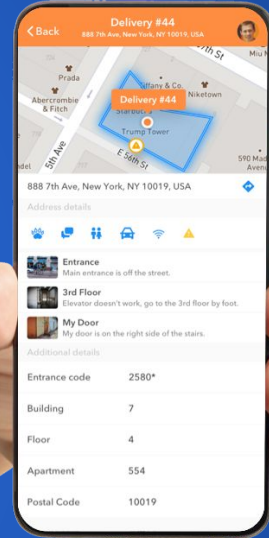

Stops is a great tool for sharing exact delivery locations for **human or drone delivery**.

Every stop gets **altitude** and **context**.

Stops

Fact: A delivery person makes 30,000+ stops a year (100 per day).

freshii

Businesses can turn any property into a smart location.

And monetize via 'contactless entry' solutions.

FREE

Customers or employees
can easily **get geo-access**
to enter private locations.

Stops

Businesses can offer free or paid **on-location services** like Wi-Fi, entrance fees and toilet stops.

And they can also offer on-location coupons, **geo-alerts** and **AR experiences** that pull customers to their product locations.

Stops' Entire Toolsuite
offers **GDPR-compliance to both**
people and businesses.

Create 3D content & products.

Discover the closest thing nearby.

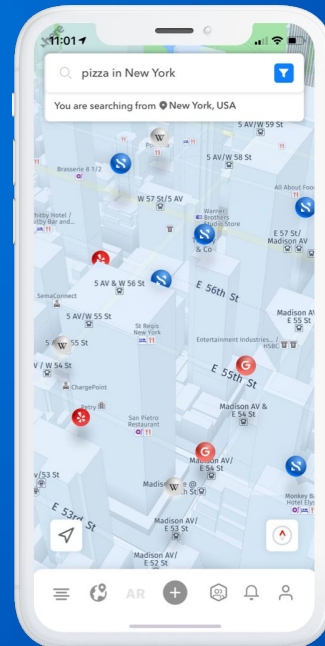

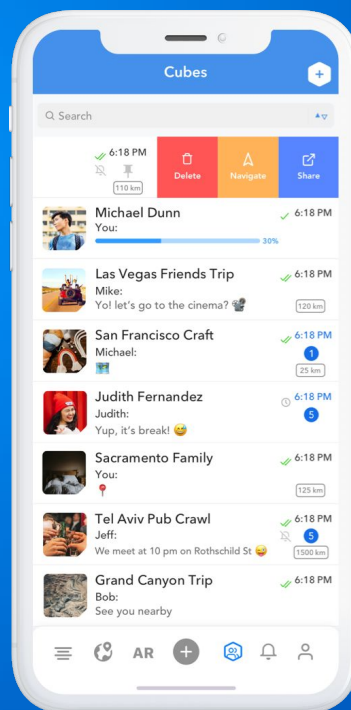

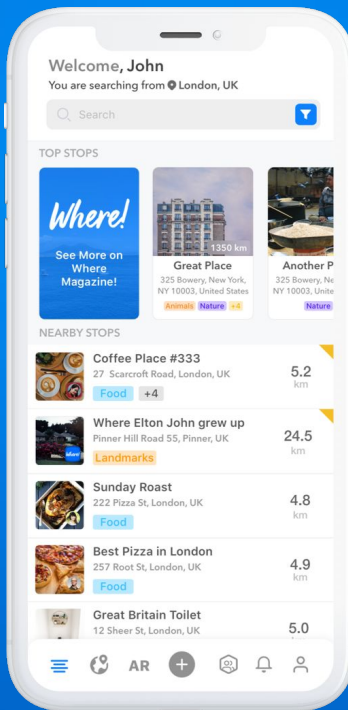

Navigate to any stop with any app.

Socialize and share locations.

Communicate securely within.

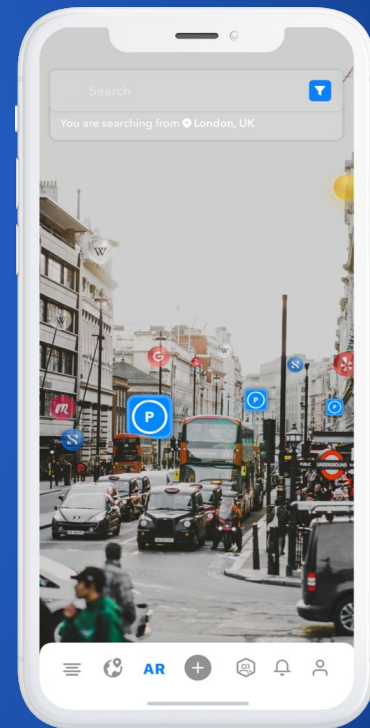

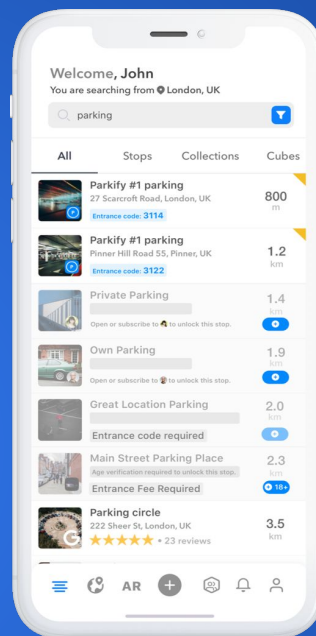

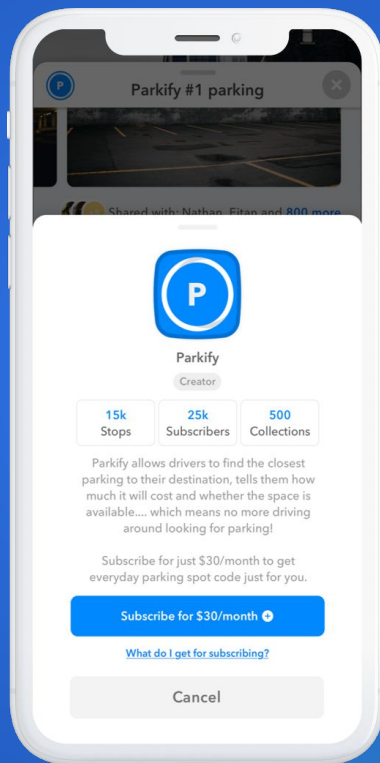

Stops

Fact: Stops has the world' first geo-based messenger.

Users pay to unlock products at smart locations.

For example: entrance fees, parking spaces, toilets, Wi-Fi, local guides or tipping.

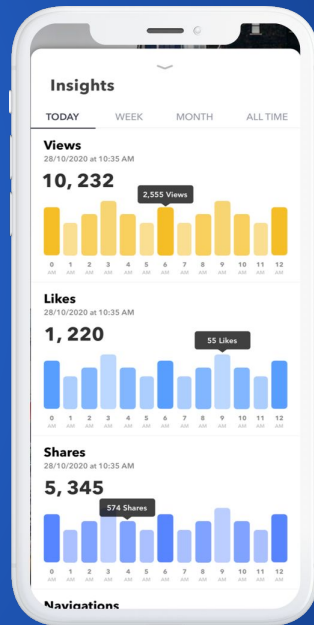

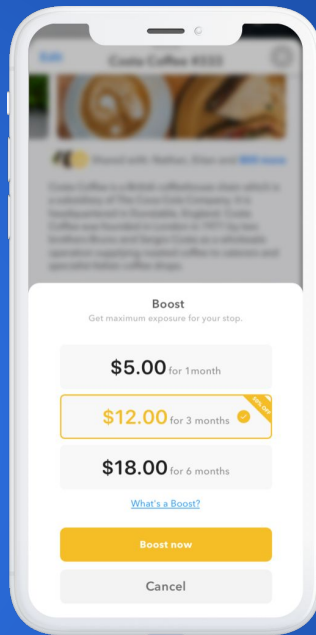

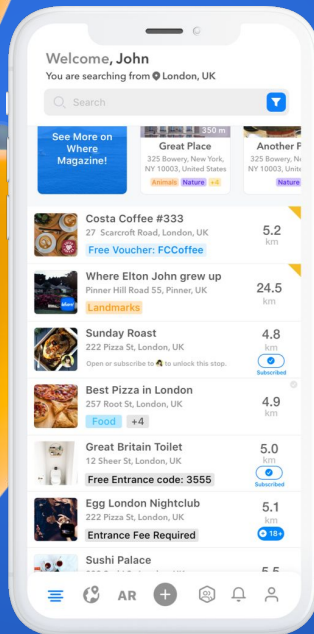

Businesses pay to boost their stops to get **full exposure** in Search, AR & Maps,."

It's similar to the **Yellow pages**.

Boost your stop!

Your stop will get **maximum exposure** in Search, AR & Maps and can be **discovered by all Stops users** (not just your subscribers).

Stops

Founded: 2016. Tel Aviv

Raised: \$1 million on Convertible Notes

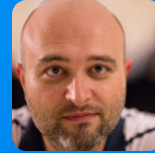

Now raising: \$500K more on Convertibles while staging a \$4 million Seed Equity round.
